Side Projects

Project 1 *https://tianmeds.github.io/TianPortfolio/*
Personal Portfolio

2022

- This portfolio is created for my project portfolio and all about me. This project is created thru Visual Studio Code with HTML, CSS and SCSS

Project 2 *https://tianmeds.github.io/SecondPortfolio/*
2ND Personal Portfolio

2022

- This portfolio is created for a client project and I use this template. I just only change it to my names to certify ownership This project is created thru Visual Studio Code with HTML, CSS and JavaScript

Project 3 *https://tianmeds.github.io/ResearchTitleGenerator/*
Research Title Generator

2022

- This website is created to Students that can help them with their Thesis and Research Paper
- This Project is created thru Visual Studio Code and uses HTML, CSS and JavaScript

Project 4 *https://tianmeds.github.io/QR-Code-Generator/*
QR Code Generator

2022

- This website is created to make the information of other people at ease and making it more friendly and interactive by just scanning the QR Code Generated of the Information you input
- This is created with JavaScript mostly and design the website using the HTML and CSS

Project 5 *http://tianmeds.github.io/DiscordWebsite/*
Discord Bot Website

2022

- This website was created as part of the Replit Hackathon. The website serves as a visual representation of my product, but the Music Discord Bot is the major entry.
- Python was used to develop the Discord Bot, and HTML and CSS were used to make the website.

2022

Project 6 *http://tianmeds.me/DigitalClock/*
Digital Clock

- This website was created by me with full knowledge about HTML, CSS and JavaScript I created this to increase my portfolio or my side project so it can improve my web development skills.

2022

Project 7 *https://tianmeds.me*
Official Portfolio Website

- This website was created by me with full knowledge about HTML, CSS and JavaScript in the past Portfolio I created them by watching a tutorial video but this is created with my pure knowledge in Front-End Languages.
